Where do I start?

- After your initial contact with Brownlowe a meeting will be arranged at your home
- This meeting will give us a clear picture of your "vision" and what you want to achieve
- We will look for the most cost-effective way to achieve your objective and keep the project within your budget

What happens next?

- We will start work on your concept plans (usually several options)
- With your input we refine the plans. We work through all the options until you are happy with the new layout
- We deliver your approved concept plans and specifications to our estimator
- We can then prepare a fully detailed quote

Now it's time to turn your

Dream into reality!
